## Description

---

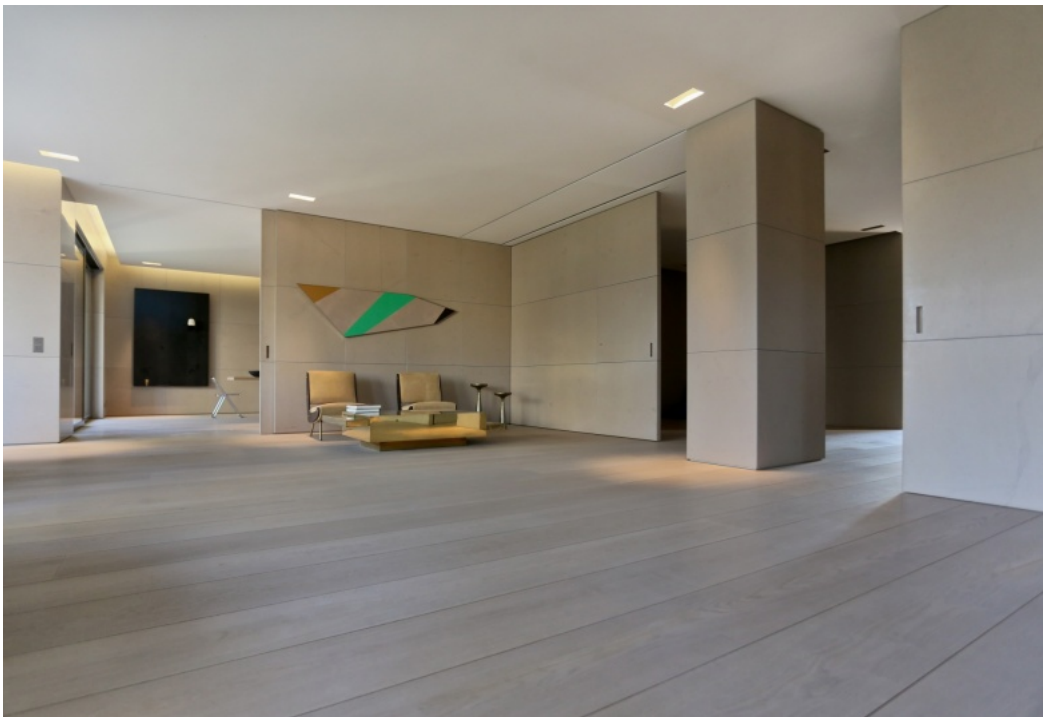

Luxury Apartment in Centre of Milan with gardens for sale. Living surrounded by the green in the center of Milan. Just favoured few can enjoy such privilege as the owners of this magnificent apartment.

Based on a Vincent Van Duysen's project - one of the top 100 architects and interior designers of the world for Architectural Digest - everything here has been transformed to create a unique experience of living in the natural light, admiring windows that have become paintings thanks to his wisdom.

Precious and timeless materials made unique by the excellence of Italian manufacturing wise; cutting edge technology for maximum comfort and safety; an obsessive attention to detail that led to Milan the firm who installed Musee du Louvre's joineries.

The living area can hold over 100 people thanks to two magnificent terraces, while the professional kitchen allows you to welcome them with a five-star service. The master suite is superb in size, magnificent in comfort and finishings, splendid in the panoramic views.
